COMMENTS FROM THE TOWN MANAGER'S OFFICE

The planning board had a meeting on Tuesday night of this week. Several subjects were discussed but the most of the time was spent on three areas. In May of 1963 the Bethel Area Development Corporation got a representative of the James W. Sewall Company of Old Town to give a talk on comprehensive planning. About a dozen interested citizens attended the meeting and most of those in attendance seemed to think that a comprehensive plan might be needed in Bethel. The Sewall Company then sent a proposal to the Bethel Planning Board that listed the items to be covered by the comprehensive plan and the cost of the plan to the town. Two copies of the proposal are on file in the Town Office for inspection by anyone who is interested. The total cost of the program would be $11,480.00. The cost to the town would be $2,870.00 with the state government paying an equal amount and the federal government paying 50% of the total cost.

The planning board will get more information on the comprehensive plan before the next meeting and discuss the advisability of recommending a similar study for Bethel.

The other two subjects that were discussed at length were the regulation of mobile homes and a revision of the present zoning ordinance.

The planning board will hold regular meetings for the fall and winter months on the first Thursday of the month starting in September. Any person who is interested in planning or any related subject is invited to attend the next meeting.

MOLLYOCKETT DAY TO BE HELD SATURDAY

Mollyockett Day, Bethel's fifteenth annual day-long bazaar, will be observed on Saturday, August 1, which also marks the 183rd anniversary of the last Indian raid on Bethel. Sponsored for the benefit of the Bethel Health and Service Council, the day is named for an Indian princess who was one of the first settlers in the Bethel valley and is best remembered as the first "healer" in the area. General chairmen, Mr. and Mrs. Warren Hastings announce that arrangements are completed. Events, many of which depict eighteenth century folklore, have been planned to delight and interest all age groups!

Booth construction will take place Friday evening headed by Warren Hastings. Ernest Perkins and the Bethel Boy Scouts have again volunteered their assistance. All men in the area interested in lending a helping hand are invited to report to the grounds at 6:00 p. m. Friday, and also at 9:00 a. m. Sunday morning for clean-up.

Mollyockett Day festivities start at 9:00 a. m. with field events open for youngsters ages six to teenage. There will be a series of relay races including potato relay, three-legged races and others. An egg-toss contest will be held with a fifty-cent prize going to the younger and to the older winning pairs. In the greased pole event, a five dollar bill will be placed on the high pole for taller contestants, and a dollar bill on the lower pole for shorter small fry.

"Mollyockett Reviews the Nations", the big parade and highlight of the day will start promptly at 11:30 a. m. A new Miss Mollyockett, already selected by a committee consisting of Mary Angevine, Amy Davis and Louise Lincoln, will lead the parade, dressed in full Indian regalia and riding in a horse and carriage. All area children have been invited to march costumed after some nation, or they may use decorated bicycles.

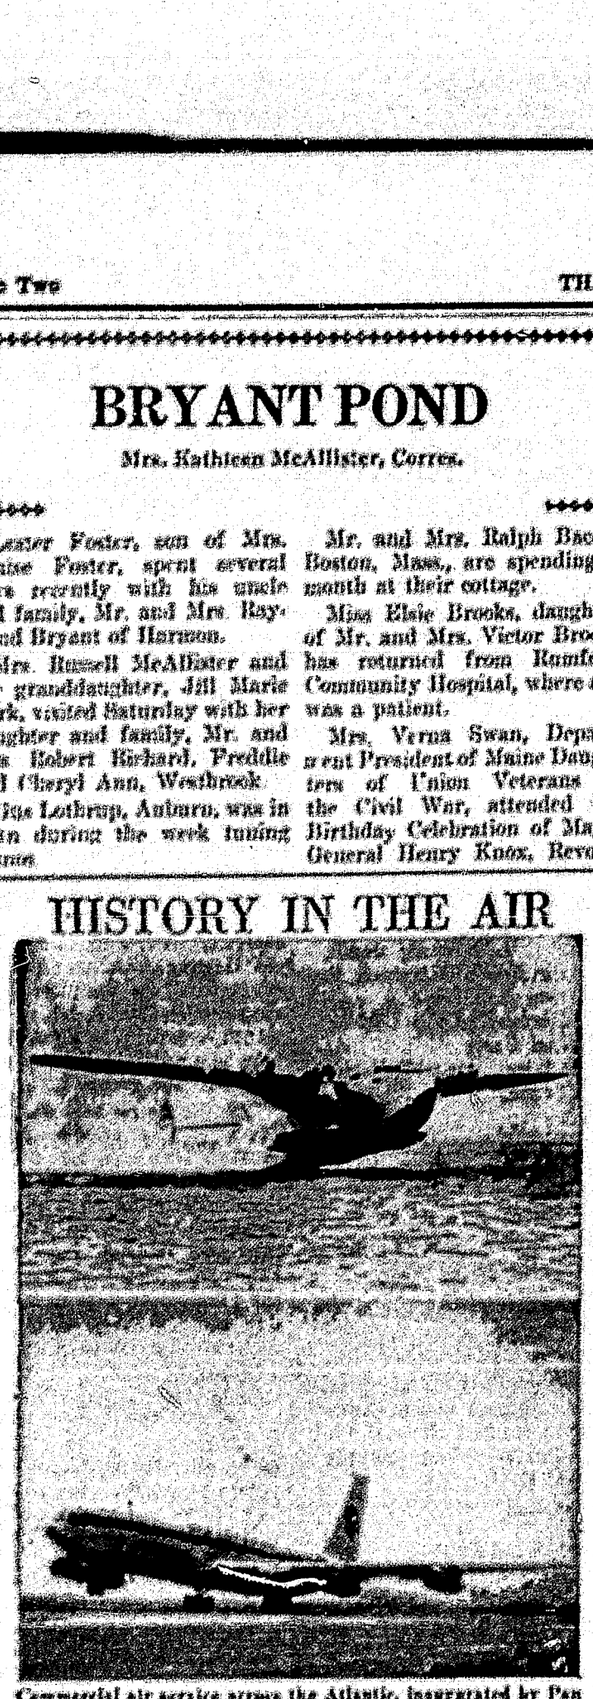
HISTORY IN THE AIR



Commercial air service across the Atlantic, inaugurated by Pan American Airways 25 years ago, observed its silver anniversary on June 28. The first paying passengers to fly the Atlantic took off from Manhasset Bay, N.Y. on Pan American Airways Dixie Clipper (top) a Boeing flying boat, on June 28, 1939. It took 42 hours and 10 minutes for that pioneering flight to reach Marseille, France. It stopped at the Azores and Lisbon on the way. For the Pan Am Jet Clippers of today, the Atlantic is only six hours wide, and Pan Am flies it 222 times every week as part of its service to 111 cities in 86 lands around the world.

Bob Hersey, professional caller, will be on hand with all the "rounds and squares" that anyone can do. "Rounds" will break into old fashioned dances. The "Swinging Bears" square dance club will demonstrate. Come see, you'll see, it's great fun for everyone!

Preparations have been underway for weeks to make this annual bazaar one big round of fun for everyone. So plan to bring the family early and attend all events.

Mollyockett Day is the only yearly fund raising drive of the Bethel Health and Service Council. For its efforts in working to meet the health needs of Bethel people, the Council was honored this year by the Maine Health Council and presented with their yearly achievement award. Now is the time to give your support to an organization which is there all year to serve you!

FLAG NOT JUST CLOTH

The flag of the United States is made up of several pieces of pretty, colored cloth

As such it is pretty, but little more

It is what the flag symbolizes, not what it is made of that gives it substance.

Soldiers have died, statesmen have fought and plain citizens have given their substance for the things for which it stands

Thus it makes the heart sick to hear reports that in many Maine communities Memorial Day services had to be halted while youngsters were told to stop interfering with its marchers.

And it is sad to watch it pass in parade before both youngsters and adults alike who fail to pay it the simple reverence it is due

No law can successfully force public respect for the flag of our country Like truth and honesty, it must be taught first in the home.

None of us should ever become so sophisticated or so callous that we feel it an indication of softness to revere in public the things for which those pieces of cloth that are our flag stand. — (Waterville Sentinel)

OLD PEABODY PEW TO BE PRESENTED AGAIN AT TORY HILL CHURCH

The Old Peabody Pew by Kate Douglas Wiggin, will be presented in the Tory Hill Church Benton Corner, near Bar Mills Maine, on Friday evening, August 7th, at 8 o'clock and Saturday afternoon, August 8th at 2:30 o'clock.

There are four new members in the cast this year. Mr. and Mrs. Robert E Davis will play the leads, Nancy Wentworth, and Justin Peabody. Mrs. Leon Bolton the part of Mrs. Sargent and Jane Anderson the part of Sally Bixby.

For millions of New Englanders and their fellow Americans, United States Savings Bonds over the years have been the means of making their wishes come true—for a home of their own, college education for their children, or a secure retirement.

Whatever your wish, why not make it come to pass by buying U. S. Savings Bonds regularly. They are absolutely safe and will be replaced free, if lost, stolen or destroyed.

Sixteen Earthquakes a Year

The extremes of the damage done by the Good Friday earthquake in Alaska were still incomplete, at this writing. Property damage amounted to roughly 1200 million, according to early reports. The death toll was much lighter than it might have been; less than 150 lives were lost.

The earthquake will almost certainly rank among the top ten news events of 1964. Alaska's economy has been prostrated. Much of the Alaska Railroad and the highway system will have to be rebuilt.

Property damage from highway accidents in the United States amounts to 18 billion annually—the equivalent of 16 Alaska earthquakes! In 1963, 43,400 Americans lost their lives in traffic accidents, an average of almost 120 fatalities a day. The Alaska earthquake death toll was little more than a normal day's highway fatalities.

As President Johnson said recently, "There is an obvious and urgent need for a program to improve our highway safety rapidly and significantly. As a nation, we cannot continue to tolerate the drain on our resources, and as human beings, we cannot continue to tolerate this terrible pain, suffering and loss of life."

There are three elements in safe driving—the driver, the vehicle and the highway. Probably the greatest opportunity for making driving safer lies in the highway element. We know that the fatality rate on modern freeways is only half the national average for all roads and that the freeway accident rate is two thirds less.

We can't make all of our roads into freeways, of course. But we know that our older highways have many hazards that should be removed—narrow bridges, steep grades, sharp curves, rail crossings at grade, dangerous intersections, skimpy or rough shoulders.

There is no such thing as a safe driver or a safe vehicle if the highway is unsafe. Most accident reports place the blame on driver error or driver carelessness, but there is no denying that the highway itself deserves a major share of the blame for many accidents.

President Johnson has asked the Secretary of Commerce to encourage and assist State and local governments in developing priority safety programs to remove hazards on highways with high-accident experience. Such programs should command the support of all citizens.

STEPHEN ABBOTT

Stephen E. Abbott, 81, died Saturday evening at Rumford Community Hospital where he had been a patient for two weeks.

Born in Bethel, Aug. 24, 1882, he was the son of Charles and Ella Davis Abbott. He attended Bethel schools and graduated from the University of Maine in 1906. He lived in Bethel where he was engaged in farming. A member of Alder River Grange, he was a 50 year member of Bethel Masonic Lodge. He was a member of the Bethel Methodist Church.

Surviving are five sisters, Miss Sarah Abbott, Portland; Miss Edith Abbott, Miss Mabel Abbott, both of Bethel; Mrs. James Mann, Lunenburg, Mass.; and Mrs. Emo Freniere, St. Petersburg, Fla.

After a long and serene life our friend and neighbor has gone to his well earned rest. The Lord requires that each of us do justly, love mercy and to walk humbly with Him. Stephen did all of these. He had a clean simplicity of mind and soul.

A farmer all his life, he found pleasure in working with his hands and all things around him. The birds, the trees, the hills and the variety of minerals on his farm were his daily joy. He was a fine gardener and roses, both the old fashioned kind and his hybrid teas were his pride.

Contentment came from the gentle love of his family, his fondness for good books and magazines and the peaceful routine of country living. As with advancing years his circle of old friends grew smaller, his interest in newer neighbors and his fondness for children were strong.

I never see a flower with its lovely fragrant face,
I never see a garden with its beauty and its grace,
But what I think of friendship with its power our souls to lift,
And always I'm reminded that a friend is God's own gift.
